## Practices

Intellectual Property

Ted Oyphanith concentrates his practice on electrical, mechanical, and financial business process patents, specializing in 5G networking and software. His experience also includes drafting patent applications and office action replies advocating his clients' inventions.

## Education

J.D., Rutgers School of Law - Camden, 2019

- Dean's Merit Scholar
- Business Law Certificate

B.A., Rochester Institute of Technology, 2004

Prior to practicing law, Ted was a fin-tech professional for over 15 years, where he assisted in implementations of financial systems for Fortune 500 companies and large government entities on a global scale, serving as a program manager, project manager, and software developer.

Ted's diverse background spans a portfolio of industries, including banking, insurance, healthcare, real estate investment trusts, and state and federal governments.

## Bar Admissions

Pennsylvania, 2019, Pending

United States Patent and Trademark Office, 2018

He received his B.A. from the Rochester Institute of Technology and J.D. from the Rutgers School of Law

## Representative Experience

- Drafted a 5G networking patent application concerning V2X and V2V side-link synchronization signals in support of autonomous vehicles for a Wilmington Delaware mobile technology research and development company.
- Drafted a 5G networking patent application concerning a hybrid wireless transmit and receive unit (WTRU) using physical channels for message priority in support of efficient network messaging for a Wilmington Delaware mobile technology research and development company.
- Drafted an office action response for a software invention concerning embedded advertisements within downloaded software arguing such invention's novelty over prior art for a United States multinational software company.
- Drafted an office action response for a smart power grid, concerning efficient electrical consumption, arguing such invention's novelty over prior art for Japanese multinational conglomerate.
